

Versatile, Dependable, Economical

All this plus customized layouts, configurations, and a choice of divert technologies. Our single, strain gauge loadcell weighing helps make the checkweigher affordable and reliable. The open design and modular plastic belting promote efficient cleaning and less down time. Even the 17" full color touchscreen monitor is rated NEMA 4X for washdown environments.

Value today and tomorrow. The checkweigher costs less to buy, less to maintain due to:

- Modular plastic belting (Other belt options are available)
- Brick-style, strain gauge load cells
- Industry standard motors, controller, display, etc.

Customization that fits your needs, your speeds, your space

SDS 1700 Touchscreen Controller provides:

- 17" full color display
- Information at-a-glance: production data, statistical records, historical graphs
- Operator efficiency: clear, intuitive inputs, easy menu navigation
- Large on-screen characters for convenient communication even at a distance
- Network communications and USB ports

Options for even greater customization:

- Portability
- Remote display
- Product guides
- Filling machine feedback
- Wireless communication
- Variable Frequency Drive
- Alarm for multiple or consecutive rejects
- Metal detector input for reject mechanism
- Single zone, 3 zone, or 5 zone indicating light post
- Network interface for PLU downloads and product uploads

Choice of frames, depending on your environment:

- Food Grade, Stainless Steel construction, NEMA 4X
- Aluminum frame option for extra economy

Call today or email us for your custom quote.

The In-motion Checkweigher with 17" Touchscreen Controller provides:

- Operator Efficiency. Clear, intuitive inputs. Easy menu navigation
- Network communication and USB ports standard
- Information at-a-glance. Production data, statistical records, historical graphs
- Low capacity checkweighing to < 1 gram sensitivity available
- High capacity checkweighing for products weighing hundreds of pounds
- Three conveyor design: in-feed conveyor, conveyor scale, exit conveyor
- Single or multiple lanes available for hundreds of pieces per minute throughput
- Stainless Steel NEMA 4X construction or aluminum frame for extra economy

Open, cleanable design
